G7 Summit in Elmau: Notes for electronic media

Last revised: June 2022

This information is updated on an ongoing basis!

1. Responsibility for electronic media at the G7 Summit in Elmau

The Press and Information Office of the Federal Government is responsible for press-related matters at the G7 Summit in Elmau. This applies to all associated venues. Only the accreditation passes and the additional BPA passes issued for host and announcer positions are valid here.

Contacts in the Electronic Media Department of the Press and Information Office of the Federal Government:

2. Global broadcast (host TV) during the G7 Summit

As a result of restrictions due to security considerations, protocol and space limitations, German public broadcasters and private TV stations have agreed to jointly provide a global broadcast (host TV) through the so-called Berlin Model for all photo/film sessions and press briefings in connection with the G7 Summit.

The Berlin Model provides two signals via satellites for free use (Weltbild1 and Weltbild2).

Weltbild 1:

25.06.2022 10:00 - 28.06.2022 21:30 gmt (dd.mm.yyyy)
ZDF DSNG 1 (Eut.-ID: D-445)
Encoding: MPEG4, 4:2:0
SR: 7.200
FEC: 3/4
Modulation: DVBS-2
Astra 3B 23,5° East
Txp. 3.018; Slot C9 23,5° Ost
Downlink: 12.609,5 MHz (Y)

Weltbild 2:

25.06.2022 10:00 - 28.06.2022 21:30 gmt (dd.mm.yyyy)
ZDF DSNG 1 (Eut.-ID: D-445)
Encoding: MPEG4, 4:2:0
SR: 7.200
FEC: 3/4
Modulation: DVBS-2
Astra 3B 23,5° East
Txp. 3.018; Slot D9 23,5° Ost
Downlink: 12.618,5 MHz (Y)

Information on submission modalities can also be obtained from the ZDF, the ARD Capital Studio or the EBU (see below).

Rights of use for Weltbild 1

Weltbild 1 may be used free of charge as a clean feed exclusively for classic television broadcasting. TV agencies are subject to an embargo for German-speaking countries, which also applies to downstream marketing. Weltbild1 may not be used online unless the relevant cost allocation is paid to the Berlin Model.

Rights of use for Weltbild 2

Weltbild 2 is available for online use free of charge and simultaneously. A watermark indicates Berlin Model copyright. Any manipulation of the signal provided for online use, such as alteration/covering of the watermark and/or scaling for the purpose of removing the watermark etc. constitutes an infringement.

Important: Misuse or unlawful use of non-transferred rights of Weltbild 1 or Weltbild 2 is subject to legal sanction by the Berlin Model!

Important: The G7 Summit photo/film sessions will be covered exclusively by the Berlin Model's live TV technology and staff to create the global broadcast in the security areas. No other TV technology will be permitted!

This applies to all photo/film sessions at Schloss Elmau, in the Briefing Centre at Schloss Elmau (press conference rooms) and at Munich Airport as well as all other photo/film sessions in connection with the G7 Summit.

3. Live announcers at the International Media Centre in Garmisch-Partenkirchen

The Press and Information Office of the Federal Government will be setting up a temporary two-storey building for live announcers at the International Media Centre in Garmisch-Partenkirchen. TV broadcasters or TV agencies were invited to express their interest in a stand-up position in this area with details of the transmission vehicles (vehicle type, registration number, dimensions in height, width and length, weight and power requirements)

by Friday, 3 June 2022, 12:00 midnight CEST. The registration period has expired.

Tim Reußner

Tel.: +49 (0) 30-18272-4160

E-mail: TV@bpa.bund.de

Important: Due to spatial and structural restrictions, it will not be possible to meet all requests for independent live stand-up positions. We advise using the services of providers who manage stand-up positions with their technology and rent out airtime, see below.

Important: The stand-up position inside the press centre in Garmisch-Partenkirchen can only be used with a valid accreditation for the G7 Summit. This also applies to interview partners!

4. TV and radio workstations in the International Media Centre Garmisch-Partenkirchen

A limited number of 40 workstations are available for TV and radio at the Media Centre Garmisch-Partenkirchen. Cutting rooms are allocated exclusively via the EBU:

Tel.: +41 22 717 2840

Important: TV and radio workstations can only be used with a valid accreditation for the G7 Summit.

5. Live announcers at the Briefing Centre at Schloss Elmau

As a result of restrictions due to security, space limitations and nature conservation considerations, only an extremely limited number of stand-up positions are available at the Briefing Centre at Schloss Elmau. Furthermore, no other transmission vehicles can be parked on the premises.

For this reason, only a small number of providers can be admitted to the Briefing Centre in addition to the host TV provided by the Berlin Model. These providers will manage stand-up positions with their live technology and rent out airtime to interested TV broadcasters.

Important: The use of these stand-up positions requires long-term planning and is very time-consuming (at least 2 to 3 hours in advance, depending on the traffic situation).

In addition to a valid G7 Summit accreditation, you will also need the special “Briefing Centre Elmau Announcer” badges. These badges are only issued by the providers on a temporary basis. A mandatory security check is then carried out at the International Media Centre in Garmisch-Partenkirchen. Transport to the Briefing Centre will take place exclusively in secure transportation provided by the Federal Press Office. After the end of the session, return transport to the International Media Centre in Garmisch-Partenkirchen is again only possible using the secure transportation provided by the Federal Press Office. The supplementary badge then has to be handed back to the providers.

Journalists may not make any other individual trips to Schloss Elmau!

6. Host TV and live announcers at Munich Airport

The photo/film sessions for the arrival of the heads of state and government will be covered exclusively by the Berlin Model’s live TV technology and staff to create the global broadcast in the security areas. Other TV technology to cover the photo/film sessions cannot be permitted. There are a limited number of live stand-up positions, however. TV broadcasters or TV agencies were invited to express their interest in a stand-up position in this area with details of the transmission vehicles (vehicle type, registration number, dimensions in height, width and length, weight and power requirements)

by Friday, 3 June 2022, 12:00 midnight CEST. The registration period has expired.

E-mail: TV@bpa.bund.de

Important: Due to security considerations and spatial restrictions, it will not be possible to meet all requests for independent live stand-up positions.

The live stand-up positions at Munich Airport may only be used with a valid G7 Summit accreditation in conjunction with the additional “Munich Airport Announcer” pass! These additional passes will be issued exclusively at the International Media Center in Garmisch-Partenkirchen in advance by arrangement with the above-mentioned contacts.

Access to the stand up is possible via Terminal 1- A North.

Flughafen München Anfahrt Terminal 1, Modul A
Bitte beachten Sie die Beschilderung vor Ort, Parkmöglichkeiten: P1/P5

7. Use of radio frequencies

All representatives of the electronic media (television, radio, online, etc.) are required to register the radio frequencies they use with the Federal Network Agency. Use without a valid frequency allocation is an administrative offence and may be subject to a fine. Unregistered radio frequencies may be blocked if necessary.

8. Coronavirus hygiene concept

The current corona-advice on the hygiene and testing concept for journalists during the G7 Summit can be found on the G7 homepage at:

<https://www.g7germany.de/g7-de/medien>

9. Transport

Due to the security measures, media representatives will not be able to travel to Schloss Elmau on their own. Access to Schloss Elmau and to the Briefing Centre for photo/film and press sessions is only possible via the International Media Centre in Garmisch-Partenkirchen after a security check has been carried out and using secure transportation provided by the Press and Information Office of the Federal Government.

Please note that there are no parking spaces available at the International Media Centre. We strongly recommend using the railway services provided by Deutsche Bahn. The stop “Garmisch-Partenkirchen Hausberg” is located directly at the International Media Centre.

Departure times for the shuttle:
